Are all debt collection agencies the same?

Most Debt Recovery Agencies (DCA) appear to offer the same types of services, the same promise of professional recovery, the same ability to handle a large number of cases in a fast and cost effective manner. So what's different about LRC?

Well, for starters, take a look at our new and improved website - recently updated to provide better navigation, a clearer view of all our services ... and what we think is a first for any DCA, a full list of costs & fees!

Talking of firsts, LRC were also the first DCA to offer a dedicated education website: www.legalrecoveries.org Dealing with a such diverse range of clients, we understand the need to remain sympathetic to each industry's specific needs and knowing Universities & Colleges operate in a different manner to our other clients, we adapt our practices accordingly!

Ever wanted to know how your DCA is performing? You can with LRC via our On-Line Debt Recovery System, which offers secure, real-time access to all your individual cases. You can view a complete history of all conversations held between you, LRC and the debtor, copies of all correspondence (such as LBA's and other Court documentation), costs and fees to date etc. You can even use it to instruct your Account Manager, ask a question, send further cases or produce your own debt management reports. Best of all, this system is completely free of charge ... and its easy to integrate with your current debt recovery solutions.

These are only some of the reasons why we think LRC are different and why we're considered one of the UK's leading debt recovery specialists. To find out more, visit our website now, or call for further information and a free copy of LRC's Guide to Debt Recovery.
